OVERVIEW

Founded in 2005 , Inflow Technologies is a niche player in the Distribution Services industry providing Value Added Distribution in Cyber Security, Networking, Unified Communications and Collaboration, AIDC , Infrastructure & Application Software, Server & Storage Management and Electronic Security products related Services in South Asia. Headquartered in Bangalore, has a presence in 19 locations.

Inflow Technologies enables system integrators & resellers to design, deploy and adopt IT technologies to facilitate their customer needs. Having relationships with 60+ global technology vendors , Inflow operates with a team of 400+ employees & 2600+ channel partners across India & South Asia, generating an annual revenue of USD 520 Million

Our Core Competencies

- Biz Dev. & Marcom : EDM, seminars, events, campaigns, joint calls etc.**
- Channel Engagement : Identify, Recruitment, Enable & Grow.**
- Training : Sales, Technical, Certification, ATC**
- Pre Sales : Joint calls, Solutions design, POC, BOM creation**
- Post Sales : Assessment Audits, Implementation, Annuity Maintenance support, NBD support for HW etc**

Cyber Security

Application delivery
networking, DDoS
protection. DDoS attack
mitigation & Network
load balancing

Archer provides a holistic
integrated risk management
solution that helps
organizations manage risk in
the digital era—uniting
stakeholders

BeyondTrust privileged
access management
solutions deliver the
visibility and control you
need to reduce risk, achieve
least privilege, and gain
operational efficiency.

Advanced Cloud
native Platform for
protecting Endpoints,
Cloud Workloads,
Identities & Data.

ClaroTy empowers
organizations to secure
cyber-physical systems
across industrial (OT),
healthcare (IoMT), and
enterprise (IoT)
environments: the Extended
Internet of Things

Borderless Networks,
Collaboration, Data Center
and Virtualization

Checkmarx makes software
security essential
infrastructure: unified with
DevOps, and seamlessly
embedded into your entire
CI/CD pipeline, from
uncompiled code to runtime
testing.

Security software
company focused on
eliminating cyber threats
using insider privileges
to attack the heart of the
enterprise

Cyware is the leading
provider of cyber fusion
solutions that power threat
intelligence sharing, end-
to-end automation and 360-
degree threat response
