

PRODUCT LINE CARD

AI

CYBERSECURITY

A10

Secure application delivery, DDoS protection, SSL inspection, firewall management.

ARCHER

GRC platform, risk, compliance management.

BeyondTrust

Privileged access management, vulnerability management.

CROWDSTRIKE

Endpoint protection, cloud native Cyber Security, threat detection, incident response.

Checkmarx

Application security, static and dynamic application security testing (SAST, DAST).

CLAROTY

Industrial CyberSecurity for OT, IT, and IoT systems.

CISCO

Network, cloud, endpoint security, zero trust, secure access, threat intelligence, incident response, identity management, network visibility.

CYWARE

Secure application delivery, DDoS protection, SSL inspection, firewall management.

CYBERARK

Privileged access security, critical infrastructure protection.

CYFIRMA
DECODING THREATS

Cyber threat intelligence, personalized and predictive threat visibility.

ENTRUST

Encryption, identity verification, secure transaction services.

ExtraHop

Network detection, response, real-time threat visibility.

Forcepoint

Data loss prevention, user behavior analytics, cloud security, insider threat protection.

FORESCOUT

Network visibility, access control, IT, OT, IoT device management.

filewave

Endpoint management, software deployment, security.

Gigamon

Network visibility, traffic intelligence, performance optimization.

Menlo Security

Browser isolation, webbased malware and phishing prevention.

hexnode

Unified endpoint management, device, application, data security.

NETSCOUT

Network performance management, DDoS mitigation. Application Performance management

netskope

Cloud security, data protection, cloud threat defense.

NETWITNESS

Threat detection, network, endpoint, log analytics, response.

CYBERSECURITY

Network visibility, security delivery platforms.

Security, risk, governance, identity, access management.

Fraud detection, identity, transaction risk management.

Identity and access management, single signon (SSO), multifactor authentication.

Nextgeneration firewalls, AI driven threat detection, cloud, and network security.

Risk management, identity governance, threat detection, incident response.

IoT, OT, IT CyberSecurity, threat intelligence, detection tools.

Firewall, network security, advanced threat protection, realtime breach detection.

Cloud security, data loss prevention.

Vulnerability management, OT security, Exposure management, Cloud security

Hardware security modules (HSMs), encryption for critical infrastructure

Secure SD-WAN, integrated networking security ; Unified SASE

Application delivery and security solutions.

NETWORKING

ARISTA

Data-driven, Cloud networking for large data center/AI, campus and routing environments.

Switches, routers, wireless infrastructure.

Wireless networking, highspeed connectivity.

Wireless LAN, SDWAN, switching.

Optical networking, automation, highspeed transport.

Advanced and high-performance routing, switching, wireless connectivity, SD-WAN and network automation

Routers, switches, access points.

IT infrastructure: servers, collaboration tools.

5G, IoT, IP infrastructure.

Long reach PoE, IP communication.

KVM switches, Serial Console, power distribution units.

KVM switches, Serial Console, power distribution units.

Smart Wi-Fi, wired networking.

Power distribution units

Cabling, connectivity, data center solutions.

Secure SD-WAN, integrated networking security ; Unified SASE

Wireless video surveillance, IP transmission.

Console, Out-of-Band, Remote & Central Management of Critical IT Infrastructure

Edge to Datacentre Switching, Wireless Controller On-Prem & Cloud, SDWAN, UTZNA, Wireless Security (AirDefense), Network Management solutions, Application Visibility & Monitoring

Unified communication: video conferencing, collaboration tools.

Cloud networking, advanced connectivity solutions.

Note:*Specific to Rest of South Asia/Bangladesh Specific

UNIFIED COMMUNICATION AND COLLABORATION

Voice networking, VoIP solutions, Audio-Video Solutions

Wireless presentation, conferencing systems.

Integrated communication: voice, video, messaging.

Video conferencing, IP telephony, collaboration.

Video, audio conferencing, collaboration tools, Headset

Unified communication: video conferencing, collaboration tools.

Unified communications, voice, video connectivity.

Interactive display, collaboration solutions.

Video communication, virtual meetings solutions.

Video Communication Devices

Call control server and Unified communications Solutions

Video conferencing: seamless communication and collaboration.

Next Gen LCD, Touch Screen, Interactive, Gaming Monitors

Smarter Meetings, Sharper Vision , AI Cameras, Vision-Driven Workplace Innovation ,Next-Gen Conferencing Cameras

Video Collaboration, Audio-Video Solutions, productivity, sustainable solutions, conference rooms, Huddle spaces, Ergonomic solutions, Team workspace, Personal workspace

Note:*Specific to Rest of South Asia

SURVEILLANCE

IP cameras, video management systems.

High-performance display solutions

Unified video surveillance, access control.

HD cameras, intelligent video analytics.

Access control, secure identity solutions.

Identity management, access control systems.

Customized electronic security solutions.

AI powered video management, analytics.

Video management software, scalable surveillance.

SERVER AND STORAGE

IT infrastructure management, automation.

Opensource solutions, cloud support.

IT operations, hybrid cloud management.

Virtualization; secure application

Enterprise Linux, cloudnative solutions.

Highperformance servers, storage systems.

Server, storage, enterprise networking, cloud computing, virtualization, data center solutions, & high-performance

IT infrastructure: servers, collaboration tools.

Unified communication: video conferencing, collaboration tools.

Super micro :cloud computing,data centre enterprises,big data,HPC,AI,5G,iOT, embeded,and edge computing

Note:*Specific to Rest of South Asia /Specific to Bangladesh and Nepal

AIDC

AIDC solutions: Barcode printer ,barcode scanners, Mobile computers, Tablets , RFID , FIS & MV

SERVICES AT A GLANCE

Professional Support

- Survey & Consulting
- Design & Architecture
- Implementation
- Deployment
- Skill Aggregation
- Annuity Support
- Project Management

Technical Assistance Centre(TAC)

- Telephonic
- Web Based
- Email Centric
- Virtual
- On-site
- RMA Hosting

Learning & Development

Structured Courses

OEM Authorized

- Forcepoint/Audiocodes/MITEL/
NETSKOPE

Inflow Designed

- Academy Flagship Programs
- Campus to Corporate
- Cybersecurity

- AI/ML/Data Analytics
- I-seek (Self Paced Learning)
- I-Seal (Centre of Experience)

Customized Courses

- R & S/NGFW/Mobility/NAC/
SD-WAN/Data Center/IDAM
- BlockChain/IOT Cloud Computing
- Skill Development & Many More...

INFLOW TECHNOLOGIES PVT. LTD

Inflow House,# 33 & 34,
Indiranagar 1st stage, Off 100 feet road,
Bangalore -560038, India.
